Aline tables and bar stools. 230 range

Tables for multi-purpose areas.

In addition to skid-base and swivel chairs, benches and bar stools, the Aline range also offers round and square low, sitting and standing-height pedestal tables, as well as two-pedestal rectangular tables. Because the stylish and transparent look and feel of Aline is ideal for informal areas used for professional purposes: sales rooms, customer-support and waiting areas, bistros and cafeterias, or desks and dining rooms at home. Thanks to the anti-bacterial fabric of the seating and the easy-care, robust table tops, Aline is an excellent choice for spas and health-care areas. Whatever the setting, the furniture lends the room a light and informal appeal that encourages an informal chat. It is both attractive and comfortable with sophisticated functions at the same time.

Aline tables, single pedestal

Available as side tables (45 cm (17³/₄" high), to sit at (73 cm (28³/₄" high) or to stand at (105 cm (41³/₈" high)). The round or square top tables with black or white, through-dyed, shock and break-proof panels made of HPL (High Pressure Laminate) have stylishly chamfered edges, matching coated pedestals and flat bright chromium-plated, aluminium star bases. They are perfect examples of seamless furnishing solutions.

Aline.
Design: Andreas Störiko

In informal recreational areas or bistros, the counter and bar stools offer the same distinctive and attractive look and flexible comfort that the skid-base chairs do. The front base on the foot section ensures stability and is a pleasant place to rest your feet.

Model 236/3

Top marks for practicality: the square and circular top high tables are optionally available with slots in the tabletop, allowing space-saving stacking of up to three standing tables.

Aline rectangular tables, double pedestal

The rectangular tables are available in five formats, ranging from small (140x70 cm) to medium (150x75 cm or 160x80 cm) to large (180x90 cm) and extra large (200x90 cm). They can be used as desks, cafeteria tables, as seminar or stand-alone dining tables, as large tables for meetings or working at.
