## Nuvola™ . 810 range

Stylishly transparent.  
Naturally round con-  
tours. Flexible comfort.

Nuvola adapts perfectly to the shape of your body, offers flexible comfort and has a minimalist appeal in terms of materials. It is simply a work of art made of polished stainless steel and naturally shaped mesh. Each Nuvola is a transparent, but understated eye-catcher – whether in lobbies, customer service areas, or at home in your lounge. Rooms still look spacious and light, even if they accommodate a lot of Nuvolas.

Its exceptional look is teamed with innovative ergonomics. The polyester mesh is cleverly stretched over stainless steel frames and offers a high level of seating comfort. The sprung stainless steel legs transform every movement into relaxing, minimal vibrations. Another practical feature is that Nuvola chairs are stackable.

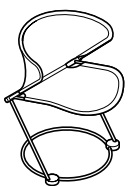

**Nuvola**  
Design: Jutta and Herbert Ohl

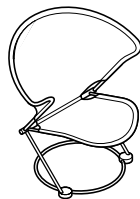

Model 811/1  
black mesh all over,  
polished stainless steel frame

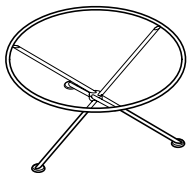

As well as the armchairs, Nuvola also offers stackable chairs, screens that can be stored compactly and stylish glass tables. As a result, areas for informal discussions can be conjured up in no time to convey privacy and discretion.
