Table Price List 2016

version 2.0

Wilkhahn & sustainability

With over 100 years of corporate history, Wilkhahn can look back on a sustainability philosophy that has grown over decades. Terms such as longevity, social fairness, environmental responsibility and cultural orientation have developed into guiding corporate principles since the 1950s. Today Wilkhahn is internationally regarded as a model of excellence not only on account of its products but also due to its modern corporate philosophy. This philosophy stems from the early awareness that a corporate culture with a long-term focus should incorporate environmental aspects, as well as the improvement of social relations and the development of a company's cultural role in society. This understanding of corporate activities creates a bond between us and our customers throughout the world. There is surely no more rewarding task than working together for a successful future that is worth living in.

Corporate principles

Truthfulness in product design
We strive to develop lasting products, increase their utility value and reduce waste. "Less is more" or "reduce to the max" are the guiding principles that Wilkhahn continually translates into future contexts. Ecologically oriented design principles are a natural, integral part of our product development.

Fairness in cooperation
We focus on people. At Wilkhahn this applies to employees, business partners and customers. It means to analyze, to inform, educate and sustainably support through the entire Project. Internally we exercise a cooperative style of management that recognizes employees' representatives as being co-managers who participate in shaping the company.

Ecological responsibility
Wilkhahn pursues the goal of sustainable development. Wilkhahn's corporate culture is shaped by the balance that we strive to achieve between economic, ecological, social and cultural objectives for safeguarding the independence of the company. Adherence to environmentally relevant criteria throughout the entire product life cycle forms the basis on which we judge our success.

Employees as partners
As an outperforming organization that is able to identify commercial opportunities, we see our employees as partners. This includes outstanding benefits, team work and an excellent project development.
All employees are financially rewarded for their accomplishments and participation in the company's success.
The employee's workplace is defined by future oriented developments guided through pioneering steps in the workplace environment where social, ecological, economic and aesthetic needs are combined to find common grounds.

Sustainability policy

UN Global Compact
Wilkhahn joined the United Nations Global Compact initiative in 2007. This self-commitment statement contains the ten principles of the Global Compact regarding the protection of international human rights, adherence to labor standards and rights for employees, the protection of the environment and anti-corruption which are laid down as binding corporate policy.

THE GLOBAL COMPACT
WE SUPPORT

Management systems
ISO 9001:2008 quality management system
In order to safeguard and continually optimize the high quality of products and processes, a comprehensive quality management system was set up at Wilkhahn's headquarter as early as 1996 which has since been certified in accordance with the ISO 9001 Quality Management Standard of the International Standardization Organization. Quality management concentrates on customer focus, management responsibility, the participation of all employees involved, process safety and its continuous improvement, transparent decision-making structures and supplier relations.

TÜV NORD
TÜV NORD CERT GmbH
DIN EN ISO 14001/DIN EN ISO 9001
Freiwillige Zertifizierung

ISO 14001:2009
In addition, is certified in accordance with ISO 14001, the international Environmental Management Standard which sets out internationally recognized specifications for an environmental management system, such as reducing ecological footprints and evaluating environmental data and environmental performance.

EMAS
EMAS is the acronym for Eco-Management and Audit Scheme, developed by the EU. As a combined environmental management and auditing system, its purpose is to verify that companies are improving their environmental performance. Wilkhahn became one of the first companies in Lower Saxony to be certified to comply with the new version of EMAS III. In the environmental declaration, confirmed by annual audits, Wilkhahn gives a public account of the company's environmental performance. For detailed and up-to-date information on Wilkhahn's socio-ecological approach, go to www.wilkhahn.us.

Product certifications
Wilkhahn office ranges are not only certified according to internationally relevant testing and inspecting standards regarding product safety and functional integrity, but they also meet all important international reference systems for promoting health and environmentally friendly products.

GREENGUARD™
Virtually all Wilkhahn products undergo testing and certification in accordance with GREENGUARD. The Greenguard Environmental Institute is an independent institution in the US that certifies products with regards to their suitability for interiors. Besides environmental aspects, special focus is on ensuring that products do not emit any pollutants that might be harmful to health.

GREENGUARD®
Indoor Air Quality Certified

LEED
Leadership in Energy and Environmental Design (LEED) is a rating system used by the US Green Building Council to evaluate the environmental and social compatibility of buildings. LEED certification awards extra credit points if Wilkhahn office chair and table ranges are used.

Responsibility from the very start

In the design and development process, alongside the design, functional and business related aspects Wilkhahn already considers the ecological impacts are already the ecological impact right from the start. For this is where the most important factors are determined that set the course for selection of materials, manufacturing processes, options for assembly, logistics and transport, reparability and recyclability. This overview shows the key aspects for the entire product life cycle that are currently applicable at Wilkhahn.

Materials
Materials used are subject to stringent control. Prohibited and hazardous chemicals are not used in our products. With the primary goal to achieve maximum durability and quality Wilkhahn uses recycled materials, in particular metals like steel and aluminum, to manufacture its products.

Production
Water conservation, waste management and sustainable energy production
Water is becoming an increasingly important resource. Wilkhahn spares no effort in minimizing water consumption in all areas. By treating process water, recycling and using state-of-the-art varnishing machinery, no waste water is produced that requires monitoring. The Wilkhahn waste management concept includes sorting and recycling waste according to same materials and contents. The continual decrease in energy consumption is an important goal of the environmental management system. A combined heat and power plant and connection to a biogas plant at the Bad Münder site has more than doubled energy efficiency. As a result, heating at the head-quarters and production facilities is CO2 neutral.

Wilkhahn's own production sites
Wilkhahn products are manufactured and assembled in Bad Münder (Germany), Castellón (Spain) and Sydney (Australia). The branch facilities and international subsidiaries are not only subject to quality management requirements, but also to socio ecological guidelines of the corporate policy which are applied throughout the entire company.

Product Use

Aesthetics and design
Products are sustainable if they serve a purpose. The timeless design of the Wilkhahn product range means they are useful, intuitive to operate and the materials used exhibit enduring quality. A standard that is reflected by every single detail. The Wilkhahn design approach therefore leads to an increase in utility that is meant to last.

Longevity and guarantee
The product ranges set standards for design that is "sustainable" in the most optimal way. The durability of the high-quality materials used, the innovative functional concepts and the classic, understated design guarantee usability for many decades. We offer a five-year manufacturers' guarantee. Our service in terms of "ecological prolongation of service life" includes general overhauling and maintenance of products from older ranges. Wilkhahn offers repair service for furniture units no longer produced for two further years following discontinuation.

Air quality and emissions of pollutants
Virtually all Wilkhahn products undergo certification in the USA in accordance with GREENGUARD Indoor Air Quality™. GREEN-GUARD™ is a certification programme for low-emission products.

End of product life cycle
Disassembly and recycling
Most components permit non-destructive disassembly. Any components weighing more than 150 g bear a material identification mark to ensure that materials can be sorted according to their type. No material protecting agents or halogen organic combinations are used that prevent subsequent recycling. Due to the clear marking and identification of all materials, we can ensure that the components of a Wilkhahn product are returned to both decentral and local material and production cycles are properly recycled and, if necessary, disposed of.

Technical Details

Function

A mobile table range with table tops that can be flipped up in the middle on the long sides which automatically causes the feet on the table to turn in (does not apply to Timetable Smart and Timetable Shift models). Suitable for multi-purpose spaces for interactive and dynamic types of conferences. Ideal in combination with the Confair range and the Logon table range for multi-purpose use of high-quality conference, lecture and meeting spaces. Timetable Smart is ideal for multipurpose interiors and for hot desking.
When flipped up it nests very compactly into the other tables, Timetable Smart has a locking mechanism and staggered nesting capabilities.

Frame

Timetable/Timetable Smart
Foot section in die-cast aluminum, bright chrome plated or polished. Uprights and underframes in steel tube, silver, satin finish, or black.
Uprights optionally available with a bright chrome-plated finish (standard Timetable only).
Table top bearer in die-cast zinc, coated black, Timetable Smart has table top bearer in steel profile, draw rod in round steel tubing and is coated black.
Lockable, height-adjustable swivel castors in black polyamide are the standard version for carpeted floors; castors available in polyurethane for hard floors (please specify when ordering).

Timetable Shift
Die-cast aluminum base, bright chrome plated, polished or silver satin finish or black coating.
Aluminum profile upright, clear ano- dized or silver satin finish, or black coating; bright chrome-plated foot sections are coated in black. Upright optionally available bright chrome plated.
Aluminum profile underframe with integrated cable channel, depending on the foot section, silver satin finish or black coated. Steel profile table top bearer. Round steel tubing draw rod, depending on foot section, black or silver satin finish coating. Lockable, height-adjustable polyamide swivel castors.

Core material of tabletop
Particle board with bullnose wood lipping with integral, impact-resilient profile in black elastomer.
Timetable Smart with melamine resin directly coated with straight, color-matched plastic edge, or optionally with Particleboard and bullnose, wood edge with integrated impact resilient profile made of black elastomer.

Table top group - laminate
Tabletop thickness 1"

Laminate according to Wilkhahn color and surface finish samples with beech lipping, natural oiled finish.

Table top group - veneer
Tabletop thickness: 1"

Variation 1:
Beech, oak and ash veneer from Wilkhahn woodstain color samples with wood edge, as far as possible in the same color as the veneer.

Variation 2:
Maple, walnut or elm veneer, as well as Wilkhahn mocca veneer with wood lipping, as far as possible in the same color as the veneer.

Veneer types
As a standard, the veneers are made by slip-match method.
Surfaces sealed with clear lacquer:
Open pore: oak, ash, walnut and elm veneer, as well as Wilkhahn Mocca veneer
Closed-pore: maple and beech veneer.

Tabletop group Pre-Lamianted (only Timetable Smart)
Table top, thickness 1″

With melamine resin with direct coating in light or dark grey with plastic lipping in the same color as the surface.

Further surfaces for the formats shown in the price list are available on request.

Modesty panels
Modesty panels with aluminum frame, coated with a silver satin finish, covered with transparent anthracite fabric. Grips in black polyamide.

Table-table-connectors (optional)
Metal table-table connectors Model 613: 2 lockable circlips made of black coated sheet steel with 4 star grip-screws and additionally for Timetable Smart: plastic table-table connectors Model 616: 2 rotatable circlips with 2 collets in black, through-dyed, reinforced fiberglass polyamide with washers.

When placing repeat orders, please indicate whether your tabletops have slip-matched or book-matched veneer.

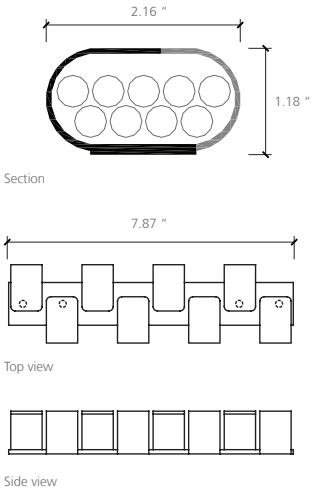
Cable Claw



Wilkhahn cable claws are used to hold and direct cables horizontally underneath the work surface.

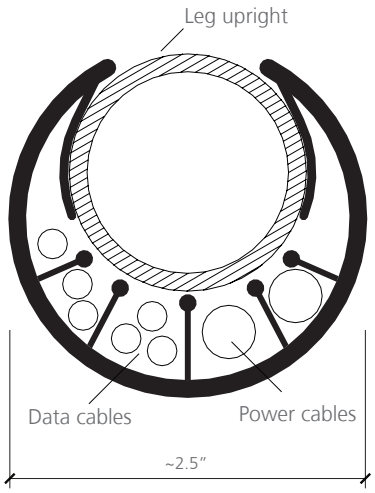
Screw mounted for security, the cable claws have flexible hooks that allow cables to be attached and removed easily.

Features

- Durable black polypropylene
- Easy cable attachment and removal
- Screw fixed to surface
- Suitable for all surfaces

Part No.	Finish	Description	Price
3964550	Black	Cable channel 7.87"x 2.16"x 1.18"	40

Cable Clip



The Timetable Cable Clip is a practical and easy to use cable management solution for the Timetable family. Simply accommodate the cables in the compartments designed for cabling and clip to the leg upright. Your cables will be neatly held together from the underside of the table and down to the floor.

Features

- Durable black propylene
- Clips can be adjacently arranged or evenly spaced
- Installation without the need for tools
- Capacity for up to 12 data cables or 4 power cables

Part No.	Finish	Description	Price
6668081	Black	Cable clip Ø 2.5"	20

Grommets

The cable grommet is a universal solution which allows cabling to pass from the tabletop to the underside of the table. A snap-on mechanism allows it to easily open and close the lid. A brushed lid allows cables to pass while lid is mounted.

Features

- 2-piece with brush for cable access
- Press-fit mounted
- 3.15" diameter

Part No.	Finish	Description	Price
790/90	Black	Ø 3.15"	103
790/91	Anodized	Ø 3.15"	134
790/92	Chrome	Ø 3.15"	124

Modesty Panel - Removable (for Timetable, Timetable Smart, Timetable Shift)

Wilkhahn Modesty Panels provide privacy as well as concealment of cable management.

The removable Timetable modesty panel has an easy release mechanism and is made from an aluminum frame coated in silver. It is covered with a semi-transparent mesh in anthracite color. Grips come in black polyamide.

Features

- Lightweight by design
- Easy removal thanks to efficient locking grips
- Height 15 3/4"

Part No.	Finish	Description	Price
795/00	Anthracite mesh	To suit 48" tables	1099
795/01	Anthracite mesh	To suit 60" tables	1136
795/02	Anthracite mesh	To suit 66" tables	1181
795/03	Anthracite mesh	To suit 72" tables	1236
795/04	Anthracite mesh	To suit 84" tables	1320

Modesty Panel - Foldable (for Timetable, Timetable Shift)

Wilkhahn Modesty Panels provide privacy as well as concealment of cable management.

The foldable Timetable modesty panel folds as the table flips. It is made of translucent mesh fabric in anthracite color.

Features

- Folds with table
- Removable
- Height 13 3/4"

Part No.	Finish	Description	Price
795/21	Anthracite fabric	To suit 60" tables	932
795/22	Anthracite fabric	To suit 66" tables	959

795/24	Anthracite fabric	To suit 78" tables	1193
795/25	Anthracite fabric	To suit 84" tables	1236

Villa Module

The Villa Module provides a simple and dynamic solution to your flexible applications such as training rooms. It is also compatible with the DaisyLink™ system which provides an easy solution for having multiple unit connections. The Villa Module can also be used on static tables although it is best suited for mobility.

Villa Daisy Link module is available as a kit for flexible tables. Each kit consists of one Villa box and two cables adding up to 72" long. A starter cable is required for the first unit (sold separately). Up to 10 units can be linked together with one starter cable.

Features

- Tabletop unit - 5.68"W x 3.39"D
- 90° hinge opening
- Brushed profile allows cables to freely pass through when lid is closed
- 72" cord
- UL certified

Interact TT Power Box

The Interact TT Power Box provides convenient power and data as well as AV connections. It is a tabletop unit and it is best suited for static table configurations.

The Interact TT has a slotted lid of its own which allows the cables to pass when the lid is closed.

The unit's power can be daisy chained by plugging each power cord to the bottom outlet of the next unit (max. 8 units)

Features

- Tabletop unit - 8.98"W x 5.34"D
- Slotted lid
- 72" power cord
- Plug and play unit
- UL certified

Integrated Techni-Station Rotate

The Integrated Techni-station rotate is a sleek desktop module that opens and closes with the push of a button. It rotates on it's own axis to show and hide it's connections. When not in use, all the connections are concealed below the surface. It can be used in both flexible or static applications.

Features

- Tabletop unit:
  12.64"W x 4.29"D (4 module)
  14.72"W x 4.29"D (5 module)
  16.81"W x 4.29"D (6 module)
- Silver finish
- 180° spring loaded mechanism
- Easy access to connections
- UL certified connections

Part No.	Finish	Description	Price
794/01	Techni-Station Rotate 4 module	2xPower, 2xData	1127

794/11	Techni-Station Rotate 6 module	4xPower, 2xData	1189

440
Confair folding table
Design: Andreas Störiko

Technical Details

Function

Moveable, collapsible and linkable table range for flexible, dynamic use of conference and communication areas. Just one single step is required to open out or collapse up to 118" long tables. The tables can also be linked to form conference systems using table-to-table connectors. Large castors with integrated brakes allow the tables to be transported in buildings. As a result, minimum cost and effort is required to manage conference spaces. Ideal for multi-purpose conference interiors in high quality design. Alternatively as a alternative in combination with the Logon table range for conference spaces with a variety of partition options, or with Timetable Shift for sophisticated training and seminar spaces.

Frame

Die-cast aluminum foot section in bright chrome plated, polished or coated in silver satin finish or black. Aluminum profile uprights and underframe, clear anodized or coated in the same colors as the foot sections. For bright chrome-plated foot sections uprights are coated black. Upright optionally available bright chrome plated.

Connecting bar und T-shaped joint coated like the uprights and underframes, with clear anodized uprights and underframes coated in silver satin finish. Connecting rod and T-shaped joint optionally bright chrome-plated.
Lockable, black polyamide castors.

Table top group - laminate
Tabletop thickness 1"
Laminate according to Wilkhahn color and surface finish samples with laminated beech lipping, natural oiled finish.

Table top group - veneer
Tabletop thickness 1"

Variation 1:
Beech veneer according to Wilkhahn woodstain color samples with laminated beech lipping or oak, or ash veneer according to Wilkhahn woodstain color samples with lipping, as far as possible in the same color as the veneer.

Variation 2:
Maple, elm or walnut veneer, as well as Wilkhahn veneer Mocca according to Wilkhahn woodstain color samples with lipping, as far as possible in the same color as the veneer.

Veneer types
As a standard, veneers are slip-matched method onto the table top.
The surfaces are sealed with clear lacquer: Open-pore: oak, ash, walnut and elm veneer, as well as Wilkhahn Mocca veneer. Closed-pore: maple and beech veneer. Veneer is a natural product and may show imperfections which cannot be avoided.

Table top group - laminate
Table top thickness 1"

Laminate according to Wilkhahn color and surface finish samples with beech lipping, natural oiled finish.

Table top group - veneer
Table top thickness: 1"

Variation 1: Beech, oak and ash veneer from Wilkhahn woodstain color samples with wood edge, as far as possible in the same color as the veneer.

Variation 2: Maple, walnut or elm veneer, as well as Wilkhahn mocca veneer with wood lipping, as far as possible in the same color as the veneer.

Standards
The Confair folding tables comply with ANSI/BIFMA X 5.5.

When placing repeat orders, please indicate whether your table tops have slip-matched or book-matched veneer.

Additional charges specific to range

Foot sections in Matte Polished Aluminum, clear Anodized upright and underframe	170
Foot sections in Chrome, Black Coated upright and underframe	358
Foot sections and upright in Chrome, Black Coated underframe	802
Table-table connector, model 613	206

Grommets

The cable grommet is a universal solution which allows cabling to pass from the tabletop to the underside of the table. A snap-on mechanism allows it to easily open and close the lid. A brushed lid allows cables to pass while lid is mounted.

Features

- 2-piece with brush for cable access
- Press-fit mounted
- 3.15" diameter

Part No.	Finish	Description	Price
790/90	Black	Ø 3.15"	103
790/91	Anodized	Ø 3.15"	134
790/92	Chrome	Ø 3.15"	124

Cable Riser

Wilkhahn Cable Riser keeps all the cables organized and in one place. It assists in protecting cables from undue stress and tension when access through a table foot section is not possible.

It provides an improved aesthetic for the collection of cables, and can be directly mounted to the table underside and above a floor service box or core hole.

Features

- Concealed cable management from desk to floor
- All cabling in one single cable rise
- Works in conjunction with Wilkhahn Cable Claw

Part No.	Finish	Description	Price
791/95	Charcoal	Vertical cable riser	175
791/96	Metallic Silver	Vertical cable riser	175
791/97	Translucent White	Vertical cable riser	186

Villa Module

The Villa Module provides a simple and dynamic solution to your flexible applications such as training rooms. It is also compatible with the DaisyLink™ system which provides an easy solution for having multiple unit connections. The Villa Module can also be used on static tables although it is best suited for mobility.

Villa Daisy Link module is available as a kit for flexible tables. Each kit consists of one Villa box and two cables adding up to 72" long. A starter cable is required for the first unit (sold separately). Up to 10 units can be linked together with one starter cable.

Features

- Tabletop unit - 5.68"W x 3.39"D
- 90° hinge opening
- Brushed profile allows cables to freely pass through when lid is closed
- 72" cord
- UL certified

Technical Details

Function

Lightweight, flexible conference table system that can be used in multi-purpose conference, seminar and training environments. It consists of individual tables that can be optionally stacked and folded. It has connecting leaves with quick and easy tool-free linkage thanks to a patented multiple connector plate, making a variety of configurations possible.

Frame

Legs in round steel tubing Ø 1½", bright chrome plated or coated.
Adjustable glides in black polyamide for soft floors (standard) and in black polyurethane for hard floors (please specify when ordering).
Optionally, as stackable version (integral separator) with legs that are locked in place using a retaining clamp integrated into the table top. Leg retaining clamp in black polyamide.
Multiple connector plate on tables and connecting leaves in die-cast zinc, bright chrome plated or coated. Connector plates on the connecting leaves fitted with separator and retention mechanism.
Tables fitted with table-to-table connectors.

Table top group - laminate

Tabletop thickness 1"
Laminate according to Wilkhahn color and surface finish samples with laminated beech lipping, natural oiled finish.

Table top group - veneer

Tabletop thickness 1"

Variation 1:
Beech veneer according to Wilkhahn woodstain color samples with laminated beech lipping or oak, or ash veneer according to Wilkhahn woodstain color samples with lipping, as far as possible in the same color as the veneer.

Variation 2:
Maple, elm or walnut veneer, as well as Wilkhahn veneer Mocca according to Wilkhahn woodstain color samples with lipping, as far as possible in the same color as the veneer.

Veneer types

As a standard, the veneers are made by slip-match method.
Surfaces sealed with clear lacquer: Open pore: oak, ash, walnut and elm veneer, as well as Wilkhahn Mocca veneer
Closed-pore: maple and beech veneer.

Modesty panels

Modesty panels with aluminum frame, coated with a silver satin finish, covered with transparent anthracite fabric. Grips in black polyamide.

Standards

The Contas tables comply with DIN EN 527.

When placing repeat orders, please indicate whether your table tops have slip-matched or book-matched veneer.

Villa Module

The Villa Module provides a simple and dynamic solution to your flexible applications such as training rooms. It is also compatible with the DaisyLink™ system which provides an easy solution for having multiple unit connections. The Villa Module can also be used on static tables although it is best suited for mobility.

Villa Daisy Link module is available as a kit for flexible tables. Each kit consists of one Villa box and two cables adding up to 72" long. A starter cable is required for the first unit (sold separately). Up to 10 units can be linked together with one starter cable.

Features

- Tabletop unit - 5.68"W x 3.39"D
- 90° hinge opening
- Brushed profile allows cables to freely pass through when lid is closed
- 72" cord
- UL certified

Interact TT Power Box

The Interact TT Power Box provides convenient power and data as well as AV connections. It is a tabletop unit and it is best suited for static table configurations.

The Interact TT has a slotted lid of its own which allows the cables to pass when the lid is closed.

The unit's power can be daisy chained by plugging each power cord to the bottom outlet of the next unit (max. 8 units)

Features

- Tabletop unit - 8.98"W x 5.34"D
- Slotted lid
- 72" power cord
- Plug and play unit
- UL certified

Integrated Techni-Station Rotate

The Integrated Techni-station rotate is a sleek desktop module that opens and closes with the push of a button. It rotates on it's own axis to show and hide it's connections. When not in use, all the connections are concealed below the surface. It can be used in both flexible or static applications.

Features

- Tabletop unit:
  12.64"W x 4.29"D (4 module)
  14.72"W x 4.29"D (5 module)
  16.81"W x 4.29"D (6 module)
- Silver finish
- 180° spring loaded mechanism
- Easy access to connections
- UL certified connections

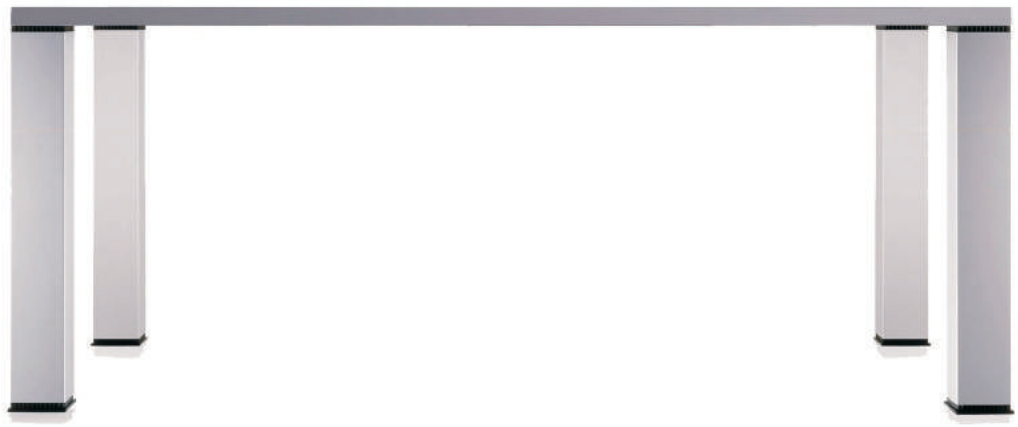
Palette
Design: Karlheinz Rubner



Technical Details

Function

Flexible, impressive-looking table system with options ranging from the single table to complex conference table system for office, seminar and conference rooms. Table top forms, lipping and table leg shapes can be adapted to suit different design concepts. Ideal for customized conference table systems and integrating state-of-the-art information and communications technologies.

Frame

Legs in square aluminum profile 3″ x 3″, clear anodized or coated, with four bolts and connected with a bayonet lock integrated into the table top. Optionally with legs in round aluminum tubing ø 2½″ – also possible here with a bright chrome-plated finish. Base element with adjustable black polyamide glides.

Core material of table top
Block board with straight, concealed lipping. On request, lipping also with bullnose profile (sides of tables that are to be linked are only available with a straight edge).
Integrated connecting mechanism for fixing legs.

Table top group - laminate
Tabletop thickness 1½″
Laminate according to Wilkhahn color and surface finish samples with laminated beech lipping, natural oiled finish.

Table top group - veneer
Tabletop thickness 1½″

Variation 1:
Beech veneer according to Wilkhahn woodstain color samples with laminated beech lipping, as far as possible in the same color as the veneer, or oak or ash veneer according to Wilkhahn woodstain color samples with lipping, as far as possible in the same color as the veneer.

Variation 2:
Maple, elm or walnut veneer, as well as Wilkhahn veneer Mocca according to the Wilkhahn woodstain color samples with lipping, as far as possible in the same color as the veneer.

Veneer types
As a standard, veneers are slip-matched onto the table top. The surfaces are sealed with clear lacquer:
Open-pore: oak, ash, walnut and elm veneer, as well as Wilkhahn Mocca veneer.
Closed-pore: maple and beech veneer.
Bottom of table in beech veneer, mostly color matched with the veneer on the top of the table.
Some specific growth features possible.

Standards
Palette tables comply with ANSI/BIFMA X 5.5.

When placing repeat orders, please indicate whether your table tops have slip-matched or book-matched veneer.

Adjoining table systems can be matched up to a maximum length of 270cm (106¼“).

The Interact TT Power Box provides convenient power and data as well as AV connections. It is a tabletop unit and it is best suited for static table configurations.

The Interact TT has a slotted lid of its own which allows the cables to pass when the lid is closed.

The unit's power can be daisy chained by plugging each power cord to the bottom outlet of the next unit (max. 8 units)

Features

- Tabletop unit - 8.98"W x 5.34"D
- Slotted lid
- 72" power cord
- Plug and play unit
- UL certified

Integrated Techni-Station Rotate

The Integrated Techni-station rotate is a sleek desktop module that opens and closes with the push of a button. It rotates on it's own axis to show and hide it's connections. When not in use, all the connections are concealed below the surface. It can be used in both flexible or static applications.

Features

- Tabletop unit:
  12.64"W x 4.29"D (4 module)
  14.72"W x 4.29"D (5 module)
  16.81"W x 4.29"D (6 module)
- Silver finish
- 180° spring loaded mechanism
- Easy access to connections
- UL certified connections

Graph
Design: jehs+laub

Technical Details

Function

A high-quality table system for traditional conference and executive workspaces.

Frame

Table legs in bright chrome plated, matt polished chrome, or coated in black or signal white. Table crossbeams / underframes made from extruded aluminum profile, color matched with the table legs (exception: model 300/50, reinforcement underframes on the inside always black). Table top bearers to connect the table top made of black-coated steel, except when the frame is coated white the table top bearer is coated white. Adjustable table glides " made of steel, glide cover made of die-cast zinc, surface the same as the frame, with glide insert made of polyamide for soft floorings and polyurethane with felt insert for hard floorings.

Tabletops

Medium density fiberboard (MDF) Table top thickness 1"

Table top group - veneer

Variation 1:
Veneers made of beech, oak or ash according to Wilkhahn woodstain color samples with color- matched and symmetrically curved table edge, protected with colorless natural wood varnish.

Variation 2:
Veneers made of oak, walnut or elm, as well as Wilkhahn mocca veneer with color-matched or symmetrically curved table edge, protected with colorless natural wood varnish.

Table top group - varnished:
White or black varnish-coated, with color-matched and symmetrically curved table edge.

Standards

The Graph tables comply with the DIN EN DIN EN 527 and ANSI / BIFMA X 5.5 standards.

Special sizes upon request, please contact:
sales@wilkhahn.com

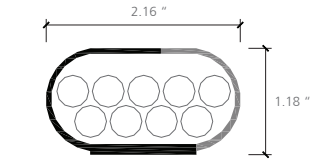
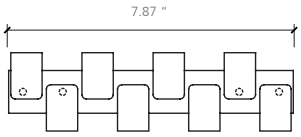
Cable Claw



Section



Top view

Side view

Wilkhahn cable claws are used to hold and direct cables horizontally underneath the work surface.

Screw mounted for security, the cable claws have flexible hooks that allow cables to be attached and removed easily.

Features

- Durable black polypropylene
- Easy cable attachment and removal
- Screw fixed to surface
- Suitable for all surfaces

Part No.	Finish	Description	Price
3964550	Black	Cable channel 7.87"x 2.16"x 1.18"	40

Cable Riser

Wilkhahn Cable Riser keeps all the cables organized and in one place. It assists in protecting cables from undue stress and tension when access through a table foot section is not possible.

It provides an improved aesthetic for the collection of cables, and can be directly mounted to the table underside and above a floor service box or core hole.

Features

- Concealed cable management from desk to floor
- All cabling in one single cable rise
- Works in conjunction with Wilkhahn Cable Claw

Part No.	Finish	Description	Price
791/95	Charcoal	Vertical cable riser	175
791/96	Metallic Silver	Vertical cable riser	175
791/97	Translucent White	Vertical cable riser	186

Grommets

The cable grommet is a universal solution which allows cabling to pass from the tabletop to the underside of the table. A snap-on mechanism allows it to easily open and close the lid. A brushed lid allows cables to pass while lid is mounted.

Features

- 2-piece with brush for cable access
- Press-fit mounted
- 3.15" diameter

Part No.	Finish	Description	Price
790/90	Black	Ø 3.15"	103
790/91	Anodized	Ø 3.15"	134
790/92	Chrome	Ø 3.15"	124

Interact TT Power Box

The Interact TT Power Box provides convenient power and data as well as AV connections. It is a tabletop unit and it is best suited for static table configurations.

The Interact TT has a slotted lid of its own which allows the cables to pass when the lid is closed.

The unit's power can be daisy chained by plugging each power cord to the bottom outlet of the next unit (max. 8 units)

Features

- Tabletop unit - 8.98"W x 5.34"D
- Slotted lid
- 72" power cord
- Plug and play unit
- UL certified

Design: Andreas Störiko

Technical Details

Function

Stand-alone tables for use in offices, and system components for permanently linked table configurations in conference rooms. Ideal for combining with Confair folding tables for versatile, partitionable conference rooms.

Frame

Foot section in die-cast aluminum, bright chrome plated, polished or coated black or silver, satin finish. Aluminum profile uprights, clear anodized or coated; coated black for bright chrome plated foot section.
Die-cast aluminum table top bearer coated in either silver satin finish or black, depending on foot section version.
Aluminum profile underframe coated in silver satin finish or black, depending on foot section version. Uprights optionally available bright chrome plated. Center under-frame for table depths 29½"- 35"; two separate underframes for table depths 41" - 51".
Adjustable glides in black polyamide. Lockable castors in black polyamide.

Core material of table top

Particle board with bullnose double, wood edge and impact-resilient profile in black elastomer.
MDF panel only in combination with veneered surface finish with colour-matched, chamfered wood lipping (with a radiused edge).
For system elements: central joining edge straight without any profile.

Table top group - laminate

Tabletop thickness 1"
Laminate according to Wilkhahn color and surface finish samples with wood lipping, natural oiled finish.

Table top group – veneer

Tabletop thickness 1"

Variation 1:
Beech, oak or ash veneer (exception: ash, natural finish, is not available with a chamfered edge version) according to Wilkhahn woodstain color samples with wood lipping, as far as possible in the same color as the veneer.

Variation 2:
Maple (exception no natural maple in chamfered-edge versions), walnut or elm veneer as well as Wilkhahn veneer Mocca according to Wilkhahn woodstain color samples with wood lipping, as far as possible in the same color as the veneer. (Maple, natural finish, is not available with a chamfered edge version).

Veneer version

As a standard, veneers are slip-matched onto the table top. Surfaces sealed with clear lacquer: Open-pore: oak, ash, walnut and elm veneer, as well as Wilkhahn veneer Mocca. Closed-pore: maple and beech veneer.
Some specific growth features possible.

Further surfaces for the formats shown in the price list are available on request.

Modesty panels

Fluted extruded aluminum profile, clear anodized or coated black.
Screw connectors to table top, clear anodized.
Modesty panels may also be retrofitted.
Price upon request.

Single table portal

Portal with brushed profile the same color and material as the table top on both sides.
Aperture with real wood lipping, as far as possible in the same color as the table top.
Hinge can be opened to 180°.
Single table portal:
350 x 150 mm (13¾" x 5") or
300 x 150 mm (11¾" x 5")
Linoleum on request.

Standards

Logon tables conform to the Standard ANSI/BIFMA X 5.5.

When placing repeat orders, please indicate whether your table tops have slip-matched or book-matched veneer.

Special sizes upon request, please contact:
sales@wilkhahn.com

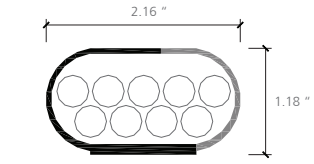
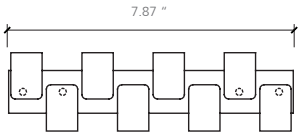
Cable Claw



Section



Top view

Side view

Wilkhahn cable claws are used to hold and direct cables horizontally underneath the work surface.

Screw mounted for security, the cable claws have flexible hooks that allow cables to be attached and removed easily.

Features

- Durable black polypropylene
- Easy cable attachment and removal
- Screw fixed to surface
- Suitable for all surfaces

Part No.	Finish	Description	Price
3964550	Black	Cable channel 7.87"x 2.16"x 1.18"	40

Cable Riser

Wilkhahn Cable Riser keeps all the cables organized and in one place. It assists in protecting cables from undue stress and tension when access through a table foot section is not possible.

It provides an improved aesthetic for the collection of cables, and can be directly mounted to the table underside and above a floor service box or core hole.

Features

- Concealed cable management from desk to floor
- All cabling in one single cable rise
- Works in conjunction with Wilkhahn Cable Claw

Part No.	Finish	Description	Price
791/95	Charcoal	Vertical cable riser	175
791/96	Metallic Silver	Vertical cable riser	175
791/97	Translucent White	Vertical cable riser	186

Grommets

The cable grommet is a universal solution which allows cabling to pass from the tabletop to the underside of the table. A snap-on mechanism allows it to easily open and close the lid. A brushed lid allows cables to pass while lid is mounted.

Features

- 2-piece with brush for cable access
- Press-fit mounted
- 3.15" diameter

Part No.	Finish	Description	Price
790/90	Black	Ø 3.15"	103
790/91	Anodized	Ø 3.15"	134
790/92	Chrome	Ø 3.15"	124

Interact TT Power Box

The Interact TT Power Box provides convenient power and data as well as AV connections. It is a tabletop unit and it is best suited for static table configurations.

The Interact TT has a slotted lid of its own which allows the cables to pass when the lid is closed.

The unit's power can be daisy chained by plugging each power cord to the bottom outlet of the next unit (max. 8 units)

Features

- Tabletop unit - 8.98"W x 5.34"D
- Slotted lid
- 72" power cord
- Plug and play unit
- UL certified

660
Travis

Technical Details

Function

Modular pedestal table system for creating static table configurations and stand-alone tables to suit preferences.
For traditional conference and executive areas, where wide table spans, special table formats and shapes, as well as perfect multimedia integration are required.

Frame

Cast aluminum T-shaped base, bright chrome plated or in silver satin finish, or black coated.
T-shaped base in steel tubing, bright chrome plated or in silver satin finish, or black coated.
Column optionally has a duct for the power supply.
Crossbeam with five mounting grooves in extruded aluminum profile, coated in silver satin finish, or black.
End closures and pivoting mechanism for attachment to table columns in die-cast aluminium in the same color as the crossbeam.
Tabletop bearers in die-cast aluminium coated to match the crossbeams in silver satin finish, or black, for attaching the table top; the tabletop bearers are positionable within the crossbeam and include plastic devices for levelling out differences in heights when mounting the tabletop.
Black polyamide glides, optionally with felt inserts (for hard floorings). The T-shaped base has color-matched caps in stainless steel.

Core material of tabletop

Particle board, depending on the surface finish with straight, color-matched plastic lipping or with straight, color-matched wood lipping.

MDF (medium-density fibreboard) only in conjunction with veneer with color-matched, chamfered wood lipping. For system elements: straight joining edge.

Table top group - laminate

Tabletop thickness 1"
Laminate from the Wilkhahn color and surface samples with plastic lipping, color matched with the surface. (Only straight edges possible!)

Table top group - veneer

Table top thickness 1"

Variation 1:
Beech, oak or ash veneer according to Wilkhahn woodstain color samples (exception: natural ash not possible with chamfered lipping) with wood lipping, as far as possible in the same color as the veneer.

Variation 2:
Maple (exception: natural maple not possible with chamfered lipping), elm or walnut veneer, as well as Wilkhahn veneer Mocca according to Wilkhahn woodstain color samples with wood lipping, as far as possible in the same color as the veneer.
Further surfaces for the formats shown in the price list are available on request.

Veneer types

As a standard, the veneers are made by slip-match method.
Surfaces sealed with clear lacquer: open pore: Oak, ash, walnut and elm veneer, as well as Wilkhahn Mocca veneer
Closed-pore: maple and beech veneer. Maple and beech veneer.

Standards

The Travis tables comply with the ANSI / BIFMA X 5.5 standard.

Travis height-adjustable

Technical Details

Function

Electrically height-adjustable tables complement the modular Travis table range.
The seating height is adjustable from a minimum of 28" to a standing height of 46 3/8" max. Pressing the button makes the switch between sitting and standing at the table simple. In terms of ergonomics, changing posture at conferences and desks is advisable and this feature makes it easy.

Frame

Steel, T-shaped base, bright chrome plated or in silver satin finish, or black coated.
Telescopic steel table column, bright chrome plated, or in silver satin finish, or black coated; telescopic section always chrome plated. Steel crossbeam, in silver satin finish, or black coated. Underframe facings at the front edges are the same as the table column's surface finish.

Black polyamide glides, optionally with felt inserts (for hard floorings). Frame electrically height adjustable from 28" to 46 3/8", supply cable 118".

Core material of tabletop

Particle board, depending on the surface finish with straight, color-matched plastic lipping or with straight, color-matched wood lipping. MDF (medium-density fibreboard) only in conjunction with veneer with color-matched, chamfered wood lipping.

Table top group - laminate

Tabletop thickness 1"
Laminate from the Wilkhahn color and surface samples with plastic lipping, color matched with the surface. (Only straight edges possible!)

Table top group - veneer

Table top thickness 1"

Variation 1:
Beech, oak or ash veneer according to Wilkhahn wood-stain color samples (exception: natural ash not possible with chamfered lipping) with wood lipping, as far as possible in the same color as the veneer.
Variation 2:
Maple (exception: natural maple not possible with chamfered lipping), elm or walnut veneer, as well as Wilkhahn veneer Mocca according to Wilkhahn woodstain color samples with wood lipping, as far as possible in the same color as the veneer.
Further surfaces for the formats shown in the price list are available on request.

Veneer types

As a standard, the veneers are made by slip-match method.
Surfaces sealed with clear lacquer: open pore: Oak, ash, walnut and elm veneer, as well as Wilkhahn Mocca veneer
Closed-pore: maple and beech veneer. Maple and beech veneer.

Standards

The Travis tables comply with the DIN 147 technical report and DIN EN 527, as well as the GS requirements.

Function

Stylish and coherently designed, multi-purpose furnishing range for meetings, consultations and seminars, in showrooms and event spaces, areas for breaks, lounges and bistros, as well as libraries, internet cafés or a home office. Round pedestal tables in four different formats (Ø 35 3/8" - 55 1/8") for large conferences, meetings or as home dining tables.

Tables

Square and circular top pedestal tables in low, sitting and standing height (optionally stackable) and rectangular tables on a T-shaped base for lounges and recreational areas, cafeterias and bistros.

Frame

Models 235/236

Four-star base in die-cast aluminum, bright chrome plated, with glides in black polyamide (for soft floors) or black polyurethane with additional felt insert (for hard floors). Central column in 1/8" thick steel tube, Ø 15/8", for low, sitting and standing height 17 1/4", 28 3/4" & 41", coated in black or white to match top surface, with steel flange coated black; stackable version additionally with slip-free separator, collar and docking guide in black plastic.

Model 237/00

Unitary, die-cast aluminum foot section, optionally bright chrome plated, or coated in black or white. Black polyamide glides (for soft flooring), or black polyurethane with additional felt insert (for hard flooring). Aluminum upright to match table top, black or white coated, or optionally bright chrome plated. Underframes made of rectangular steel tube with flange, depending on the foot section, coated black or white. If the foot section is bright chrome plated, black coating.

Models 237/2, 4, 5

Steel disc base 24" in diameter with sheet-steel cover coated white or black or with optional cover in lustre-polished stainless steel.

Table column made of steel tubing 3" in diameter, coated white or black, optionally bright chrome plated. Table top bearer made of rectangular tubing coated black.

Model 237/6

Steel disc base 28" in diameter with sheet-steel cover coated white or black with optional cover in lustre-polished stainless steel.

Table column made of steel tubing 3" in diameter coated white or black, optionally bright chrome plated. Table top bearer made of rectangular tubing coated black.

Core material of tabletop

Models 235/236/237

Table top in black or white dyed-through HPL (high pressure laminate) in 1/2" thickness.

Models 235/236 in sizes:

23 5/8" x 23 5/8" square and
Ø 29 1/2" for table heights
17 3/4"

27½"x27½" square and
Ø 29 1/2" for table heights
28 3/4"

23 5/8"x 23 5/8" square and
Ø 27 1/2" for table heights
27 1/2"

Models 237 in sizes:

(Table height 28 3/4" (73cm))
27 1/2" x 55" (70 x 140 cm)
29 1/2" x 59" (75 x 150 cm)
31 1/2" x 63" (80 x 160 cm)
35" x 70 7/8" (90 x 180 cm)
35" x 78 3/4" (90 x 200 cm)

Models 237/2, 4, 5, 6

Core material of table top
1" thick MDF table top (medium-density fiberboard), white or black powder coated with chamfered edge.

Models 237/2, 4, 5, 6

In sizes:

Ø 35 3/8"
Ø 43 1/4"
Ø 49 1/4"
Ø 55 1/8"

Technical Details

Function

Tables for versatile furnishing of offices and communication areas, as a combination or as stand-alone for project work, training and seminars, lounges, bistros, canteens and recreational areas etc.

Frame

Legs made of round steel tube, 1 5/8" in diameter, bright chrome plated or black, white or silver satin finish. Multi-purpose, polyamide glides in black for soft and hard floorings. Die-cast zinc table-leg mounts to match the table legs, optionally bright chrome-plated or coated. Underframe attached with screws and with underframe profiles made of square steel tubing (1" x 1") and black-coated corner angles made of die-cast zinc.

Core material of tabletop
E1 plywood tabletop.

Table top group - laminate
Table top thickness 3/4"
Laminate according to the Wilkhahn color and surface samples with polypropylene plastic lipping.

Table top group - veneer
Tabletop thickness 3/4"

Variation 1:
Beech veneer according to Wilkhahn woodstain color samples with laminated beech lipping or oak, or ash veneer according to Wilkhahn woodstain color samples with lipping, as far as possible in the same color as the veneer.

Variation 2:
Maple, elm or walnut veneer, as well as Wilkhahn veneer Mocca according to Wilkhahn woodstain color samples with lipping, as far as possible in the same color as the veneer.

Tabletop group - Pre-Laminated
Tabletop thickness 3/4"
Melamine resin, directly coated in white or light gray with plastic lipping in the same color as the surface made of ABS.

Modesty panels
Aluminum frame, black coated and covered with black fabric.

Table-table connectors (optional)
2 sheet-steel connectors, black coated, 4 star grip-screws.

Standards
The Concentra tables comply with the DIN EN 527 and ANSI / BIFMA X 5.5 standards.

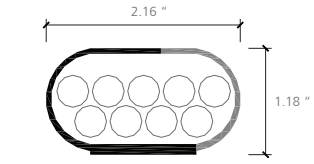
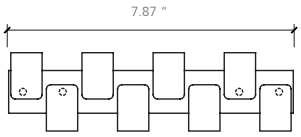
Cable Claw



Section



Top view

Side view

Wilkhahn cable claws are used to hold and direct cables horizontally underneath the work surface.

Screw mounted for security, the cable claws have flexible hooks that allow cables to be attached and removed easily.

Features

- Durable black polypropylene
- Easy cable attachment and removal
- Screw fixed to surface
- Suitable for all surfaces

Part No.	Finish	Description	Price
3964550	Black	Cable channel 7.87"x 2.16"x 1.18"	40

Grommets

The cable grommet is a universal solution which allows cabling to pass from the tabletop to the underside of the table. A snap-on mechanism allows it to easily open and close the lid. A brushed lid allows cables to pass while lid is mounted.

Features

- 2-piece with brush for cable access
- Press-fit mounted
- 3.15" diameter

Part No.	Finish	Description	Price
790/90	Black	Ø 3.15"	103
790/91	Anodized	Ø 3.15"	134
790/92	Chrome	Ø 3.15"	124

Cable Riser

Wilkhahn Cable Riser keeps all the cables organized and in one place. It assists in protecting cables from undue stress and tension when access through a table foot section is not possible.

It provides an improved aesthetic for the collection of cables, and can be directly mounted to the table underside and above a floor service box or core hole.

Features

- Concealed cable management from desk to floor
- All cabling in one single cable rise
- Works in conjunction with Wilkhahn Cable Claw

Part No.	Finish	Description	Price
791/95	Charcoal	Vertical cable riser	175
791/96	Metallic Silver	Vertical cable riser	175
791/97	Translucent White	Vertical cable riser	186

Villa Module

The Villa Module provides a simple and dynamic solution to your flexible applications such as training rooms. It is also compatible with the DaisyLink™ system which provides an easy solution for having multiple unit connections. The Villa Module can also be used on static tables although it is best suited for mobility.

Villa Daisy Link module is available as a kit for flexible tables. Each kit consists of one Villa box and two cables adding up to 72" long. A starter cable is required for the first unit (sold separately). Up to 10 units can be linked together with one starter cable.

Features

- Tabletop unit - 5.68"W x 3.39"D
- 90° hinge opening
- Brushed profile allows cables to freely pass through when lid is closed
- 72" cord
- UL certified

Interact TT Power Box

The Interact TT Power Box provides convenient power and data as well as AV connections. It is a tabletop unit and it is best suited for static table configurations.

The Interact TT has a slotted lid of its own which allows the cables to pass when the lid is closed.

The unit's power can be daisy chained by plugging each power cord to the bottom outlet of the next unit (max. 8 units)

Features

- Tabletop unit - 8.98"W x 5.34"D
- Slotted lid
- 72" power cord
- Plug and play unit
- UL certified

Integrated Techni-Station Rotate

The Integrated Techni-station rotate is a sleek desktop module that opens and closes with the push of a button. It rotates on it's own axis to show and hide it's connections. When not in use, all the connections are concealed below the surface. It can be used in both flexible or static applications.

Features

- Tabletop unit:
  12.64"W x 4.29"D (4 module)
  14.72"W x 4.29"D (5 module)
  16.81"W x 4.29"D (6 module)
- Silver finish
- 180° spring loaded mechanism
- Easy access to connections
- UL certified connections

Technical Details

Function

Tables for versatile furnishing of offices and communication areas, as a combination or as stand-alone for project work, training and seminars, lounges, bistros, canteens and recreational areas etc.

Frame

Legs made of round steel tube, 1 5/8" in diameter, bright chrome plated or black, white or silver satin finish. Multi-purpose, polyamide glides in black for soft and hard floorings. Die-cast zinc table-leg mounts to match the table legs, optionally bright chrome-plated or coated. Underframe attached with screws and with underframe profiles made of square steel tubing (1" x 1") and black-coated corner angles made of die-cast zinc.

Core material of tabletop
E1 plywood tabletop.

Table top group - laminate
Table top thickness 3/4"
Laminate according to the Wilkhahn color and surface samples with polypropylene plastic lipping.

Table top group - veneer
Tabletop thickness 3/4"

Variation 1:
Beech veneer according to Wilkhahn woodstain color samples with laminated beech lipping or oak, or ash veneer according to Wilkhahn woodstain color samples with lipping, as far as possible in the same color as the veneer.

Variation 2:
Maple, elm or walnut veneer, as well as Wilkhahn veneer Mocca according to Wilkhahn woodstain color samples with lipping, as far as possible in the same color as the veneer.

Tabletop group - Pre-Laminated
Tabletop thickness 3/4"
Melamine resin, directly coated in white or light gray with plastic lipping in the same color as the surface made of ABS.

Modesty panels
Aluminum frame, black coated and covered with black fabric.

Table-table connectors (optional)
2 sheet-steel connectors, black coated, 4 star grip-screws.

Standards
The Concentra tables comply with the DIN EN 527 and ANSI / BIFMA X 5.5 standards.

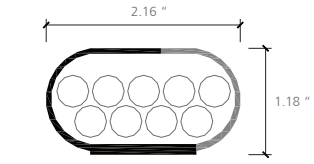
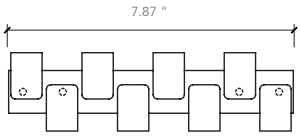
Cable Claw



Section



Top view

Side view

Wilkhahn cable claws are used to hold and direct cables horizontally underneath the work surface.

Screw mounted for security, the cable claws have flexible hooks that allow cables to be attached and removed easily.

Features

- Durable black polypropylene
- Easy cable attachment and removal
- Screw fixed to surface
- Suitable for all surfaces

Part No.	Finish	Description	Price
3964550	Black	Cable channel 7.87"x 2.16"x 1.18"	40

Grommets

The cable grommet is a universal solution which allows cabling to pass from the tabletop to the underside of the table. A snap-on mechanism allows it to easily open and close the lid. A brushed lid allows cables to pass while lid is mounted.

Features

- 2-piece with brush for cable access
- Press-fit mounted
- 3.15" diameter

Part No.	Finish	Description	Price
790/90	Black	Ø 3.15"	103
790/91	Anodized	Ø 3.15"	134
790/92	Chrome	Ø 3.15"	124

Cable Riser

Wilkhahn Cable Riser keeps all the cables organized and in one place. It assists in protecting cables from undue stress and tension when access through a table foot section is not possible.

It provides an improved aesthetic for the collection of cables, and can be directly mounted to the table underside and above a floor service box or core hole.

Features

- Concealed cable management from desk to floor
- All cabling in one single cable rise
- Works in conjunction with Wilkhahn Cable Claw

Part No.	Finish	Description	Price
791/95	Charcoal	Vertical cable riser	175
791/96	Metallic Silver	Vertical cable riser	175
791/97	Translucent White	Vertical cable riser	186

Villa Module

The Villa Module provides a simple and dynamic solution to your flexible applications such as training rooms. It is also compatible with the DaisyLink™ system which provides an easy solution for having multiple unit connections. The Villa Module can also be used on static tables although it is best suited for mobility.

Villa Daisy Link module is available as a kit for flexible tables. Each kit consists of one Villa box and two cables adding up to 72" long. A starter cable is required for the first unit (sold separately). Up to 10 units can be linked together with one starter cable.

Features

- Tabletop unit - 5.68"W x 3.39"D
- 90° hinge opening
- Brushed profile allows cables to freely pass through when lid is closed
- 72" cord
- UL certified

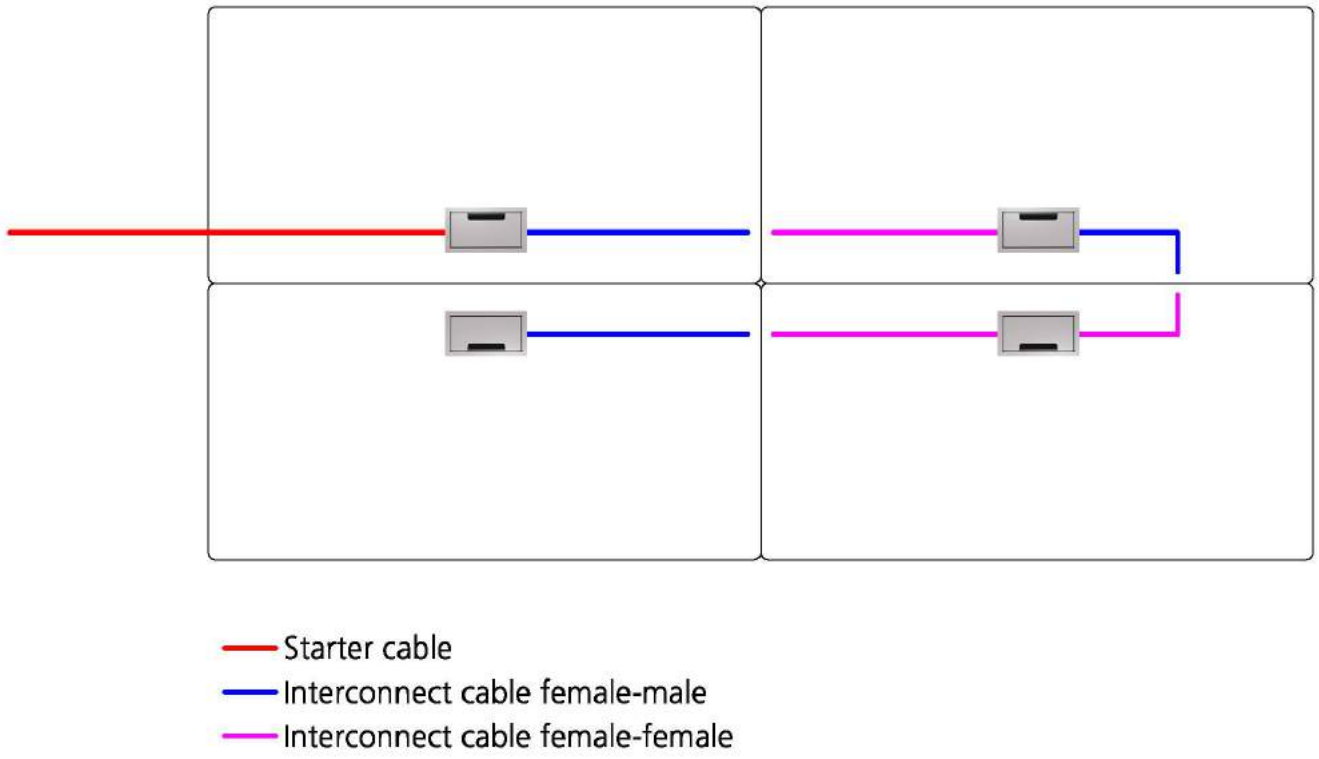
Villa Module diagram



Interact TT Power Box

The Interact TT Power Box provides convenient power and data as well as AV connections. It is a tabletop unit and it is best suited for static table configurations.

The Interact TT has a slotted lid of its own which allows the cables to pass when the lid is closed.

The unit's power can be daisy chained by plugging each power cord to the bottom outlet of the next unit (max. 8 units)

Features

- Tabletop unit - 8.98"W x 5.34"D
- Slotted lid
- 72" power cord
- Plug and play unit
- UL certified

Integrated Techni-Station Rotate

The Integrated Techni-station rotate is a sleek desktop module that opens and closes with the push of a button. It rotates on it's own axis to show and hide it's connections. When not in use, all the connections are concealed below the surface. It can be used in both flexible or static applications.

Features

- Tabletop unit:
  12.64"W x 4.29"D (4 module)
  14.72"W x 4.29"D (5 module)
  16.81"W x 4.29"D (6 module)
- Silver finish
- 180° spring loaded mechanism
- Easy access to connections
- UL certified connections

Terms and Conditions

1. Parties. "We" and related terms and "WILKHAHN" refer herein to WILKHAHN, Inc. (d/b/a "Wilkhahn"), a Delaware corporation; "you" and related terms and "Purchaser" herein refer to any person or entity purchasing or offering to purchase Goods from WILKHAHN. The goods and services delivered or to be delivered by WILKHAHN to Purchaser are herein referred to as the "Goods."

2. Acceptance. The terms and conditions of sale and delivery herein set forth (the "Terms and Conditions") shall constitute the sole and exclusive agreement between WILKHAHN and Purchaser with respect to any transaction between WILKHAHN and Purchaser. Mere issuance of Purchaser's form containing different or additional provisions shall not constitute a specific objection. An order shall not be effective until WILKHAHN shall have accepted it in writing. WILKHAHN's acceptance of Purchaser's order shall not constitute an acceptance of printed provisions on any form supplied by Purchaser which are different from or additional to any term hereof, unless specifically accepted in writing by an authorized officer of WILKHAHN, and such different or additional provisions are hereby expressly rejected.

3. Orders. A contract shall not be established except upon our written confirmation of an order. We shall be entitled to assume (a) acceptance of these Terms and Conditions (b) any additional terms and conditions set forth in our acknowledgment of order and (c) confirmation of your order, upon acceptance of the delivered goods or your compliance with our request for payment in advance or you having a letter of credit issued for our benefit. Should Purchaser require amendments to be made to its order subsequent to our confirmation of the same, no such amendment shall be effective, unless we agree to such amendment in writing; we may, at our discretion, refuse to accept all or part of any such request.

4. Suspension and Cancellation. Upon doubt of the Purchaser's financial solvency or creditworthiness, we shall be entitled to suspend performing our contractual obligations. If Purchaser does not provide adequate assurance and/or adequate security to support the payment of any outstanding order within the time specified by WILKHAHN, WILKHAHN may thereupon cancel any open order and, without limiting the generality of the foregoing, shall not be obligated to deliver any of the ordered Goods and shall be entitled promptly to be indemnified and held harmless by Purchaser from and against any losses, damages, liabilities, costs and expenses incurred and suffered by it in connection with the suspension and/or cancellation of any order, (including without limitation lost profits and costs incurred for the acquisition of primary materials necessary to commence manufacture and otherwise fill the order).

5. Prices and Delivery. Written price quotations issued by WILKHAHN expire thirty (30) days from the date of issuance and may be withdrawn by written notice at any time during this period, unless the relevant offer shall have been accepted in writing by Purchaser. Unless specified otherwise by WILKHAHN in writing, prices are (a) F.O.B. (as defined by New York law) WILKHAHN's warehouse, if the origin of the shipment is in the United States of America, or (b) F.O.B. (Incoterms 2010) WILKHAHN's factory, if the origin of the shipment is outside the United States of America. Upon Purchaser's request, WILKHAHN will identify the point of origin. Whenever possible, WILKHAHN will ship in accordance with Purchaser's instructions within the contiguous United States of America. If a carrier and/or a method of shipment and/or routing are not specified, WILKHAHN will exercise its professional judgment in selecting a carrier, the method of shipment and/or routing, as the case may be, in order to deliver the Goods to Purchaser's address indicated by Purchaser (the "Purchaser's Site") within the contiguous United States only. Unless otherwise agreed in writing, WILKHAHN will charge for freight a percentage of the price, as referenced in the relevant price quotation and/ or invoice. WILKHAHN shall not be responsible for any other costs and expenses in connection with the transportation from the point of origin to the Purchaser's Site, including without limitation, transport insurance and charges incurred at the point of destination such as any costs of storage, unpacking, assembly, installation or any other work, services or expenses performed or incurred at Purchaser's Site. In any case, the risk of loss and damage shall pass over to Purchaser once the Goods have been put into the possession of the carrier at the point of origin.

6. Time for Delivery. Any delivery dates furnished by WILKHAHN to Purchaser are estimates only and do not bind WILKHAHN to ship or deliver the Goods on the dates indicated unless specifically so stated by WILKHAHN in writing to be binding. WILKHAHN reserves the right to make partial shipments and to submit separate invoices to Purchaser for each such partial shipment. If Purchaser defaults in its obligations in regard to any partial shipment, WILKHAHN may suspend any additional shipments unless and until Purchaser cures such default and shall have such other remedies set forth herein. Binding delivery dates are subject to change for any cause which interferes with WILKHAHN's production, supply, transportation or installation of the Goods (whether or not caused or contributed to by WILKHAHN's negligence or fault), including, but not limited to, any event of force majeure. If WILKHAHN fails to comply with designated, binding or other delivery dates, makes partial shipments, or fails to perform its obligations in accordance with any time limits, WILKHAHN shall not incur any liability whatsoever for any direct, indirect, consequential, incidental, special, exemplary or punitive damages (including claims for loss of profits or other claims) which may be incurred by Purchaser or any other person or entity. Title to the Goods sold hereunder shall pass from WILKHAHN to Purchaser at the time when the risk of loss and damages passes in accordance with the applicable shipping term as described in the last sentence of Section 5.

7. Force Majeure. In the event of delay due to war, riots, labor or industrial disputes, energy or other raw material shortages, transportation problems, accidents, administrative measures or disruptions in WILKHAHN's or one his affiliates or direct or indirect supplier's businesses or some other cause beyond WILKHAHN's control, the time for any delivery shall be extended accordingly and WILKHAHN shall not incur any liability whatsoever for any direct, indirect, consequential, incidental, special, exemplary or punitive damages (including claims for loss of profits or Purchaser's or any other person's or entity's claims arising out of or relating to changes in delivery dates, partial shipments or untimely performance) which may be incurred by Purchaser or any other person or entity. Upon the occurrence of a force majeure event, WILKHAHN may, at its sole discretion, elect, by a written notice to Purchaser, to cancel the order and determine not to ship some or all of the Goods.

8. Storage. Should Purchaser fail to accept Goods upon delivery by WILKHAHN on or within ten (10) business days of the delivery date set forth in the order acknowledgment or as otherwise agreed in writing, we shall be entitled to make arrangements for the storage of the Goods and be entitled to charge the Purchaser for the Goods as well as for storage costs plus a handling and administration charge of $1,000.

9. Taxes. Except as otherwise provided by law, Purchaser shall be solely responsible to pay all income, sales, excise, or other taxes due in connection with any sale hereunder. If Purchaser claims an exemption from any tax, Purchaser shall submit the relevant exception certificate to WILKHAHN with the written order acknowledgement.

10. Specifications. The specifications contained in our order confirmation shall be authoritative in determining our obligations regarding the quality of Goods. Insofar as the order specifications make reference to specifications contained in brochures or other printed or other materials (e.g. on our website), such specifications shall be deemed merely to be examples, and shall not binding upon us. In the case of natural material such as wood or leather, Purchaser accepts that all specifications, representations or samples can only be understood to be exemplary depictions due to the natural variations of such materials.

Terms and Conditions

11. Inspection. Purchaser shall diligently examine the delivered Goods and shall notify WILKHAHN of any non-conformance with any of the specifications without delay at the latest within one (1) business day of Purchaser's receipt of the goods.

12. Limited Warranty. WILKHAHN warrants that the Goods shall substantially conform to the design specifications established by WILKHAHN in regard to the Goods under normal use and service, in line with generally accepted industry standards and the relevant state of the art, unless otherwise agreed by WILKHAHN and Purchaser. If any failure to conform substantially to any specification is reported to WILKHAHN in writing within five (5) years after the date of receipt of the Goods by Purchaser and to the extent that any substantial non-conformance cannot be detected by a reasonable and customary inspection, such report shall be made within five (5) years after the receipt of the Goods by Purchaser. Purchaser will not be entitled to a warranty claim merely on the grounds of non-conformance of the Goods' optical characteristic; Purchase must also demonstrate that the Goods' functionality was compromised. WILKHAHN, upon being satisfied of the existence of such non-conformity, shall correct the same, at its sole election, either by repairing the non-conforming Goods or by delivering to Purchaser replacement of such number or quantity of the Goods as shall have a non-conformity within a reasonable period of time (which may exceed sixty (60) days). Purchaser shall separate non-conforming Goods from conforming Goods, and Purchaser shall be deemed to have accepted the conforming Goods. Purchaser shall not repair or have an unauthorized third party repair any non-conformity without WILKHAHN's prior written consent. If WILKHAHN is unable or unwilling to correct such non-conformity by repairing or delivering replacement goods, whether due to the nature of such non-conformity, the use made by the Purchaser of the Goods, or for any other reason, WILKHAHN shall, at its sole election, reduce the purchase price accordingly or grant the Purchaser a credit against future purchases. WILKHAHN shall in no event be required to refund any part of the purchase price. The warranty set forth in this paragraph shall apply not only to the Goods but also to any replacement Goods. This warranty does not cover damage or defects caused by or resulting from (i) unauthorized repairs, alterations or modifications to the Goods, (ii) negligence, accident, abuse, misuse, improper, unsuitable or abnormal usage or storage of the Goods, (iii) failure to conform strictly to WILKHAHN's specifications and instructions in connection with the use, storage or repair of the Goods, (iv) defects due to specifications supplied by Purchaser, (v) exposure of the Goods to unreasonable temperatures or other environmental conditions, or (vi) storage and usage past specified product life. Ordinary wear and tear shall not be considered a defect in workmanship or materials. The foregoing shall be Purchaser's sole and exclusive remedies, and the liability of WILKHAHN hereunder is expressly limited to repair or replacement of nonconforming Goods or the grant of a credit, as the case may be.
WILKHAHN SHALL NOT BE LIABLE TO PURCHASER OR ANY OTHER PERSON FOR DAMAGES IN EXCESS OF THE PURCHASE PRICE PAID BY PURCHASER AND WILKHAHN SHALL NOT BE LIABLE TO PURCHASER OR ANY OTHER PERSONS, WHETHER BY WAY OF INDEMNIFICATION OR CONTRIBUTION OR OTHERWISE, FOR SPECIAL OR CONSEQUENTIAL DAMAGES, WHETHER ARISING FROM DEFECTIVE WORKMANSHIP OR MATERIALS OR DESIGN, BREACH OF WARRANTY, DELAYS IN DELIVERY OR FROM ANY OTHER CAUSE WHATSOEVER, INCLUDING THE NEGLIGENCE OF WILKHAHN OR ANY ENTITIES CONTROLLING, CONTROLLED BY OR UNDER COMMON CONTROL WITH WILKHAHN. THIS WARRANTY SHALL BE IN LIEU OF ALL OTHER WARRANTIES, AND THE WARRANTIES OR MERCHANTABILITY OR FITNESS FOR PURPOSE OR OTHERWISE, EXPRESS OR IMPLIED, ARE EXCLUDED.
In the event of delivery delays for which WILKHAHN shall have agreed to be liable, WILKHAHN shall not be liable in any event for more than any amount of liquidated damages expressly agreed by WILKHAHN in writing. Any claim by Purchaser shall be made in writing, shall describe all relevant facts in sufficient detail (including all relevant documents) and shall not be delivered to Purchaser later than thirty (30) days after the relevant event resulting in the alleged damage. No Goods shall be returned without WILKHAHN's prior written consent. Goods which WILKHAHN consents to have returned shall be shipped by Purchaser at Purchaser's risk and expense, freight prepaid, to WILKHAHN's manufacturing plant or such other location as WILKHAHN may designate. WILKHAHN's warranty obligation is limited to the original Purchaser of Goods. High wear parts such as fabrics and other covering materials, metal framed stacking chairs and wood veneers are not covered by this warranty. WILKHAHN does not warrant matching of color, grain or texture of wood or leather because of natural color variations which cannot be controlled. Damage incurred in transit from the point of origin to the Purchaser's Site or occasioned by accident, negligence, abuse or alteration is not included in this warranty. WILKHAHN does not warrant the appearance, behavior or durability of Purchaser's own material or Purchaser's own leather applied to WILKHAHN Goods. Upholstery materials are not warranted against fading or irregularity in register. WILKHAHN will pass through other manufacturer's warranties where applicable and to the extent possible. WILKHAHN warranty applies only to WILKHAHN Goods. Warranty does not apply to attachments to WILKHAHN Goods. Any warranty expressed or implied is invalid when WILKHAHN components are used in conjunction with any components not manufactured or sold by WILKHAHN. Goods not installed or used in accordance with WILKHAHN installation and/or application guidelines are not included in this warranty. The warranty against defects only encompasses defects existing at the time of delivery and defects in Goods manufactured by us. The warranty does not cover material supplied by the Purchaser. We expressly point out that the surfaces of the goods are subject to wear and tear by reason of ordinary usage. We shall be entitled to charge the Purchaser for the costs incurred in examining the goods in the event of an unjustified claim of defects.

13. Changes and Cancellation. Orders may not be changed or cancelled, in whole or part, without prior written consent by WILKHAHN, which consent WILKHAHN may or may not grant at its sole discretion. Changes may effect delivery dates. WILKHAHN reserves its right to charge Purchaser for expenses incurred as a result of changes or any cancellation requested by Purchaser.

14. Terms of Payment. Unless otherwise agreed by WILKHAHN in writing, Purchaser shall make a non-refundable deposit equal to fifty percent (50%) of the total price, plus all fees, charges and expenses payable by Purchaser, including with respect to transportation and installation, by wire transfer in immediately available funds (the "Deposit") to WILKHAHN's following bank account:

HSBC Bank USA N.A.
Acc# 04888 3085
ABA# 02100 1088
Swift Code# MRMDUS33

WILKHAHN shall not be required to commence any work with respect to any order until the full amount of the Deposit shall have been received by WILKHAHN. Purchaser acknowledges and agrees that the Goods are specially manufactured for Purchaser and that the Deposit shall be non-refundable in all cases. The remaining fifty percent (50%) of the purchase price and all remaining fees, charges and expenses relating to any order shall be paid by wire transfer in immediately available funds to WILKHAHN's bank account as herein above designated upon delivery of the invoice to Purchaser. Invoices will ordinarily be issued to Purchaser upon the shipment of the Good or, if shipped from outside of the United States of America, within five (5) days after entering the United States of America. Purchaser is not entitled to make any deductions or set-offs from payments due to WILKHAHN. Upon default on the part of Purchaser to pay on time, Purchaser shall pay to WILKHAHN, subject to any further damages we may incur, a late charge of $1,000 and interest on all outstanding sums at the rate of 5% above the prime lending rate (or, if lower, the highest legally permissible rate). All payments should be effected such that payment is credited on the date that payment shall be due. All banking and other charges in connection with any payment shall be paid by Purchaser.

Terms and Conditions

15. Copyrights and Designs. We shall retain the ownership and copyright of all documentation delivered or shared with Purchaser, including but not limited to all illustrations, drawings, sketches and collections, which are to be promptly returned to us upon request and all copies which cannot be returned shall be destroyed and, upon request, Purchaser shall certify such destruction. We shall also have all rights relating to forms, prototypes and technical solutions relating to the Goods. Purchaser shall not be entitled to make or have made Goods by reverse engineering or otherwise using our Goods, or parts thereof, as a prototype or model. This prohibition includes the manufacture of such reverse engineered goods, whether independently or with or through an agent or a third party, as well as the direct or indirect participation in the distribution of such reverse engineered goods. ANY VIOLATION OF ANY PART OF THIS SECTION SHALL BE A WILFUL VIOLATION OF COPYRIGHT LAWS which may entitle Wilkhahn to collect statutory and other damages as well expenses, including attorneys' fees, from Purchaser.

16. Indemnity. Purchaser shall indemnify, defend, reimburse and hold WILKHAHN harmless from and against all costs, losses, liabilities, damages and expenses (including attorneys' fees and expenses) (collectively, a "Loss" or "Losses"), arising out of or resulting from (i) any the breach by Purchaser of any of its obligations hereunder or (ii) any actual or threatened claim, demand, action or proceeding initiated by any third party arising out of or resulting from an act or omission of Purchaser.

17. Dispute Resolution. These Terms and Conditions shall be governed by the laws of the State of New York, without reference to its conflicts of law principles; provided, however, that the parties hereto expressly exclude the application of the 1980 United Nations Convention on Contracts for the International Sales of Goods. Each of WILKHAHN and Purchaser hereby irrevocably consents that (i) any action, suit or other legal proceeding arising out of or relating to any transaction hereunder may be brought in any federal or state court within the County of New York, State of New York, (ii) consents to the jurisdiction of such courts in any such suit, action or proceeding, waives any objection which it may have to the laying of venue of such suit, action or legal proceeding in any such court and any claim that any such suit, action or proceeding has been brought in an inconvenient forum, (iii) service of process may be accomplished using any of the methods described in Section 20 hereof, (iv) any judgment may be enforced in any other jurisdiction by suit on the judgment or in any other manner provided by law and (v) nothing in this Section 18 shall affect the right of WILKHAHN to serve legal process in any other manner permitted by law or affect the right of WILKHAHN to bring any suit, action or proceeding against Purchaser or its property in any court of any jurisdiction. EACH OF WILKHAHN AND PURCHASER HEREBY IRREVOCABLY WAIVES, TO THE FULLEST EXTENT PERMITTED BY LAW, ALL RIGHTS TO TRIAL BY JURY IN ANY ACTION, PROCEEDING, OR COUNTERCLAIM (WHETHER BASED UPON CONTRACT, TORT OR OTHERWISE) ARISING OUT OF OR RELATING TO ANY TRANSACTION HEREUNDER. In connection with any controversy hereunder, each party shall be responsible for its attorneys' fees and disbursements and all court and related costs and expenses, except that if WILKHAHN shall be the prevailing party in any such controversy WILKHAHN shall be entitled to reimbursement of attorneys' fees and disbursements and all court and related costs and expenses from Purchaser.

18. Confidentiality. Purchaser agrees that all specifications, data and other technical, financial or other non-public information furnished by WILKHAHN to Purchaser constitute the property of WILKHAHN, are furnished solely for the purpose of WILKHAHN's performance hereunder, shall be held in strict confidence by Purchaser and may not be copied, made accessible to third parties or used without WILKHAHN's prior written consent. Purchaser shall promptly return all such information and all copies thereof (in whatever format, including electronic, digital, hard copy or other medium) to WILKHAHN upon WILKHAHN's request or, if such delivery is impossible, destroy such information and certify such destruction to WILKHAHN in writing. Such request may be made at any time prior to or after delivery of any Goods. The obligations of Purchaser hereinabove set forth shall survive cancellation or completion of any order.

19. Notices. Any notices given hereunder shall be in writing and shall be deemed given: (i) upon delivery, if by hand; or (ii) after one (1) business day, if sent between destinations within the continental United States, or two (2) business days, if sent between the continental United States and any other jurisdiction, if sent by air courier (e.g., UPS, DHL, Airborne or Fedex). All notices to WILKHAHN hereunder shall be given to Wilkhahn Forum New York, 601 West 26th Street, Suite 820, New York, NY 10001 and the sales representative of WILKHAHN responsible for Purchaser's account, and all notices to Purchaser shall be given to such address as indicated in the relevant order acknowledgment, or at such other address (or to such other person's attention), as shall be specified by like notice by the relevant party.

20. Definition. Purchaser acknowledges and agrees that (i) it shall be a "merchant" within the meaning of the Uniform Commercial Code, as in effect from time to time in the State of New York (the "UCC") and (ii) any transaction between WILKHAHN and Purchaser shall be deemed to be "between merchants" within the meaning of the UCC. Purchaser further acknowledges and agrees that it has the skill and knowledge of a merchant in the Goods, particularly in that it has a legal and/or purchasing department, business personnel or other agents who are familiar with the business practices involved in that transaction contemplated hereby or otherwise equipped to handle such a transaction.

21. Miscellaneous. The invalidity or unenforceability of any one or more of the terms and conditions of this form shall not affect the validity or enforceability of the remaining provisions hereof. The failure or omission of WILKHAHN to insist upon strict performance of any term or condition hereof or to exercise any right hereunder shall not be deemed to be a modification of any term or condition hereof or a waiver or relinquishment of the future performance of any such term or condition, nor shall such failure or omission constitute a waiver of the right of such party to insist upon future performance by the other party of any such term or condition. This document may be amended from time to time by WILKHAHN upon notice to Purchaser, and any such amended version shall supersede any and all prior versions thereof.
