Moodboards

Edition 2

Pure

Playful freshness

Originally inspired by bright, Scandinavian environments, Pure is now becoming more playful while maintaining a sense of well-being. Light gray and beige tones are accompanied by delicate shades of purple, pink and blue. Accessories in moss green bring naturalness to interiors. Despite new accents, the light color scheme radiates calm and freshness at the same time.

Basic colors: light gray, cream

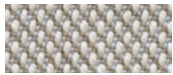

Accent colors: pastel violet, moss green, ice blue

Earth

Natural fiber, wood and warmth

Earth is the color scheme that radiates coziness and connection to nature. Our integrative design concept leads to interesting forms, more organic than constructed. Earth accompanies and underpins this design concept and at the same time represents high quality with organic influences.

Base colors: sand, dark brown

Accent colors: golden yellow, copper and dusky pink

Greenery

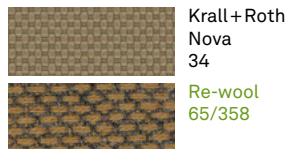

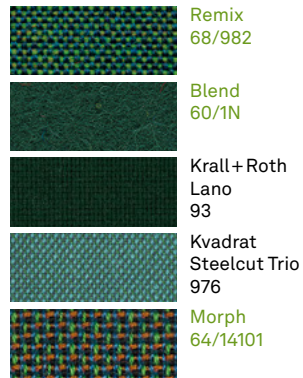

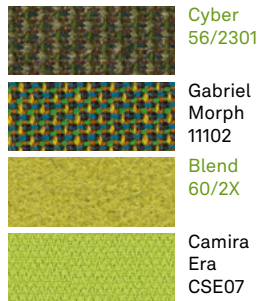

Originality with fresh accents

Dark, rich shades of green are complemented by a strong, bright green and accompanied by colors reminiscent of flowers. Greenery introduces nature into the office and can be interpreted in a very classic as well as modern way. Handmade accessories, fine plants and flowers as well as wooden elements perfectly round off the color scheme.

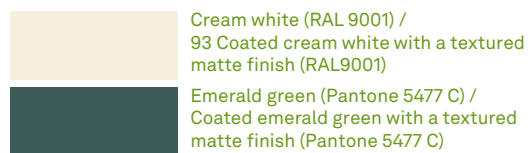

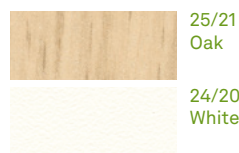

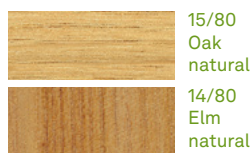

Base colors: dark, rich greens, spring green
 Accent colors: sunny yellow, cream, lavender

Sophisticated

Superior craftsmanship meets high-tech

Sophisticated symbolizes retention of tradition with simultaneous courage to progress. Classic high-quality materials such as leather and chrome are brought into a new age via their color combination.

Both surface contrasts (textured wood/glossy surfaces) and cold/warm contrasts play with the contradiction of tradition and progress.

Basic colors: light gray, gray beige, warm dark Brown

Accent colors: honey, gray blue, ice blue

Delicate

Simple elegance

Delicate shows that even large structures can bring an elegant subtlety. Bright, light-flooded rooms are accompanied by interesting, natural structures and radiate balance.

Basic colors: cream, taupe, light gray, gray-brown
 Accent colors: dark emerald green, brass, sand

Super Real

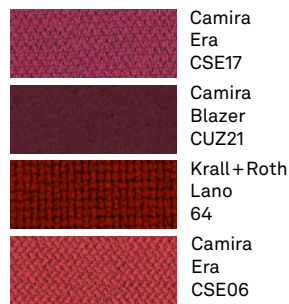

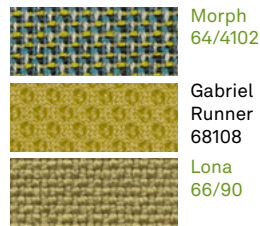

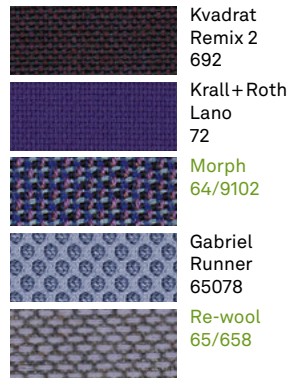

Digital dimensions

Digitization and metaverse enable new, creative design approaches. Super Real stands for innovation and affinity for technology and is reminiscent of digital, futuristic worlds. Surfaces play with ambient reflections and take on new, unexpected forms. Contrasts emerge between soft shapes and cool metal.

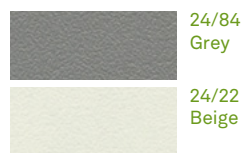

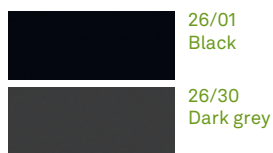

Basic colors: Light gray, anthracite, ultramarine purple
 Accent colors: muted purple, magenta, yellow green
