

Cana™.

890 range

Cana is much more than a bench. Cana is the last word in versatility. If you fold out the three backrest sections, the simple bench becomes an elegant two-seater that is ideal for casual discussions in private.

The seat can also be pulled out to make Cana a comfortable place for power napping and an integral part of modern working life.

A solid-wood frame, laminboard, cushioning with a wool-fleece overlay and high-grade leather combine a sophisticated look with sustainable quality. Whether you are receiving visitors, having a private chat or recharging your batteries – Cana combines a high level of comfort with a streamlined, purist look.

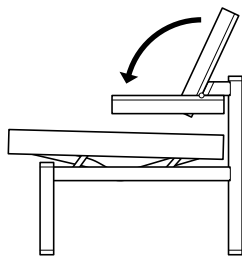

Cana

Design: wiege, Fritz Frenkler, Justus Kolberg

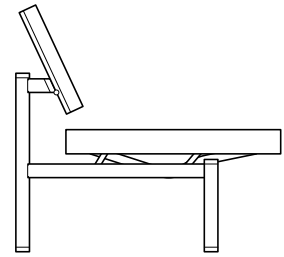

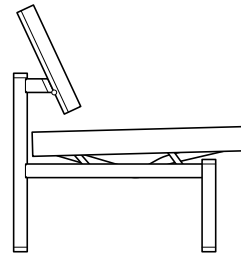

Model 890/6

seat and back with leather upholstery,
frame coated in a silver satin finish

Lining Cana benches up with one another produces versatile seating. By folding down the armrests, you can also create different zones. By simply pushing the seat forward, Cana becomes a comfortable office couch.

The Cana benches, used in the showrooms of a well-known sports car maker, are embossed with the brand's characteristic crest. The upholstered seams and the thread precisely mirror the finish so typical of the company's products. As a result, brand values and corporate design are conveyed while talking to customers.
