Cubis. 830 range.

## Cubis.

Cube-shaped.  
Comfortable.  
Classical and modern.

Cubis is a range of seats that matches any architectural style without competing with it. The shape of the chair with its closed side sections conveys a feeling of well-being in open-plan interiors too. The streamlined shape of the chair creates an uncluttered impression, whatever the layout. The side sections are supported by legs made of elliptical aluminium profiles with distinctive bevelled finishing elements at the top.

The firm seat upholstery ensures extreme comfort and the seat's height makes getting up easier – whatever your age. At the same time, different frame finishes and the variety of covers leave plenty of scope for different design options. And of course there are side tables available to match the upholstered furniture. Cubis always cuts a fine figure – whether in foyers and reception areas, in lobbies or as office seating for a small informal group.

# Cubis. 830 range. Technical details.

# Wilkhahn

## Function

Cube-shaped upholstered chairs and upholstered benches with backrests, as well as wood-panel tables to match for informal meeting spaces, such as receptions, lobbies and foyers.

## Upholstered chairs and benches with backrests

### Frame

Oval tubular aluminium frame, bright chrome-plated, in a natural or black anodised finish or coated. The bottom of the glides is made of polyurethane for soft and hard floorings.

### Seat and backrest

The seat, backrest and side sections consist of a covered, upholstered solid beech frame. Back section with a flexible top edge. Cushioning made of a foam mix with a fibre fleece overlay.

## Table

### Frame

Oval tubular aluminium frame, bright chrome-plated, in a natural or black anodised finish or coated. Black polyurethane glides.

### Core material of table top

Birch plywood.

### Table top group 1 – laminate

Thickness 42 mm Laminate based on the Wilkhahn colour and surface samples. Form-milled laminated wood edge profile with a natural oiled finish.

### Table top group 2 – veneer

Thickness 42 mm Variant 1: Beech, oak or ash veneer from Wilkhahn woodstain colour samples. Milled edge, colour matched as far as possible with the veneer. Variant 2: Maple, walnut or elm veneers, as well as Wilkhahn Mocca veneer from the Wilkhahn woodstain colour samples. Milled edge, colour matched as far as possible with the veneer.

### Veneer types

As a standard, the veneers are made by slip-match method. Surfaces sealed with clear lacquer: open-pore: oak, ash, walnut and elm veneer, as well as Wilkhahn Mocca veneer closed-pore: maple and beech veneer. Some specific growth features possible.

## Standards

The upholstered Cubis chairs and benches comply with the ANSI/BIFMA X 5.4 standard. The Cubis tables comply with the ANSI/BIFMA X 5.5 standard.
