Landing.

The sound-absorbent Landing wall relief manages to create a welcoming atmosphere for spontaneous “stopovers”, even where space is lacking in places such as aisles, cross-over spaces and stairwells. A flat, upholstered, textile-covered element, 60 x 60 cm in size, and an equally large three-dimensional relief component can be arranged and combined at will.

Depending on its configuration, the relief can be used for perching or leaning on, as shelving or a screen for more privacy. Landing's available in seven colours, improves acoustics, creates niches, takes the weight off feet while standing and is a space for drinks and smartphones.

Landing. 208 range. Technical details.

Wilkhahn

Design: Rudolph Schelling Webermann

Function

Decorative and sound-absorbent wall relief that can be combined as desired to lean, sit or place things on in aisles, cross-over spaces and staircases in order to encourage users to meet and talk to other people.

Model 208/1 flat element

Core panels made of laminated wood, upholstered with PUR foam and covered in fabric.

Model 208/2 relief element

Core panels made of laminated wood and MDF, upholstered with PUR foam and covered in fabric. Can be fitted vertically to lean or horizontally to perch on, or rotated by 180° to make a table-cum-shelf, which then comes with optional sheet steel surface screwed on from the inside, coated with a textured matt finish in grey.

With two integrated attachments for each edge length that enable users to hang it up and engage it at any right angles and four fittings to mount it to the wall.
