

Wilkhahn

Dynamic. International. Design.
Internship at Wilkhahn Asia Pacific 2019

About Wilkhahn

Unlike any other manufacturer in the office furniture industry, Wilkhahn stands worldwide for design made in Germany. It offers high-quality office and dynamic conference furniture. Some 60 years ago, the company made better utility value, long-lasting design and durability its goals. The classic office chair FS-Line (1980), Confair folding conference table (1994), office chair Modus (1994) or skid-base chair Aline (2004) have shaped the way offices have evolved. The latest examples of pioneering innovations are the multi-purpose chair Chassis, the conference range Graph, or three-dimensional ON, IN and AT which leading experts currently consider the world's best office chairs. Wilkhahn also sets new standards in terms of its socio-ecological approach. As winner of the German Environmental Prize, the company has worked with architects Frei Otto and Thomas Herzog and has actively been practising environmental responsibility for over 20 years. In addition to several international accolades, office chair ON has also received the Federal Eco design Award.
